Figaro's Pizza is growing! If you are ready to take control and build equity in yourself instead of someone else, do it now, The time is right and Figaro's Pizza is the right opportunity.

Figaro's Pizza began in 1981 as the dream of two entrepreneurs, Corkey Gourley & Al Debacker in Salem and Albany, Oregon, who wanted to meet the needs of busy families. In an era when both parents often work outside the home and there's a universal demand for speed, quality, value and convenience, you can well understand Figaro's Pizza's popularity as a partner in mealtime preparation.

Our niche, "We Bake or You Bake" provided a unique and enviable position in the competitive and growing pizza business. That element is the cornerstone of two of the four business models available to you today.

In June of 2001, Figaro's was purchased by Ron Berger, a franchise veteran of 25 years, and his associates.

Prior to Figaro's, from 1980 to 1988 Ron founded and served as Chairman, Chief Executive Officer and President of National Video, Inc. which he grew to 746 stores before selling the company. Ron founded and served as Chairman and Chief Executive Officer of Rentrak Corporation in Portland, Oregon from 1989 until 2000. Several years ago, Rentrak's valuation or 'market cap' on the stock exchange reached one billion dollars.

Ron has served three terms as a member of the Board of Directors of the International Franchise Association.

Ron put into place a plan for Figaro's Pizza long term growth. It began internally by creating an infrastructure to support franchisees and now, with several all-new state of the art store designs, all-new brand positioning and delicious, unique pizza and other foods, Figaro's Pizza is poised for rapid expansion.

Figaro's Pizza Unique Selling Proposition centers on our food and its value. A Figaro's Pizza truly has "*Flavors That Sing®*" because of the ingredients we use and the recipes that we follow.

The foundation of all good pizza is the crust. At Figaro's Pizza, we make dough fresh daily in our stores using a proprietary blend of components that leads to a crust that bakes up light and crisp both in our stores as well as the customer's oven at home. And that's just the beginning.

We take just as much pride in what goes on top. We have a unique blend of fresh sauces. Our red sauce, for example, contains imported extra virgin olive oil, We use only 100% REAL Mozzarella cheeses, our vegetables are never canned or frozen, our leaner meats have no fillers and none of our pizzas contain added MSG. Our pizzas contain no trans-fat. The distinctive, unique flavors that come from these ingredients are combined in terrific recipes which enhance the superior tastes. All of these factors, plus generous topping portions, leads us to proudly claim that Figaro's Pizza has "*Flavors That Sing®*!"

Our delicious taste and abundant portions leads the consumer to see that Figaro's Pizza is a great food value – an important attribute to families.

Since 1981, Figaro's Pizza has been making pizza and other products consumers love – calzone, salads, breadsticks and more. When you add in an extensive training and support system, you can see that Figaro's Pizza is a very attractive business opportunity.

Do I need previous foodservice experience before I buy your franchise?

No, you do not need previous experience at all. What you need is the desire to be your own boss! Regardless of which franchise structure you choose, we provide in-depth training to help you get started and then offer outstanding support along the way to help you grow your business.

What financial investment do I need to make?

The total investment to become a Figaro's franchisee will depend on which franchise structure you choose. For a single-unit franchise, the investment can range between \$86,000 to \$546,000. If you elect to purchase a multi-unit franchise, your investment would be a function of how many and the type of stores you plan to open.

Please refer to the **INVESTMENT** section of the Franchise Disclosure Document for a clear representation of the total investment ranges. In all cases, the investment includes the initial franchise fees, training costs, inventory, build-out expenses, computer hardware and software, and insurance.

Can I expect assistance in finding locations?

All sites, including those that you suggest, will be scored against a list of attributes we have determined to be critical to the potential success of our locations.

What else will Figaro's Pizza do for me?

At Figaro's Pizza we do a lot for our franchisees. We begin by providing you with in-depth training on operating and growing your business. You'll learn the techniques and operational processes of our unique system. Our ongoing support and training programs keep you abreast of the successful techniques we and other franchisees use as well.

We will lend you a copy of our Confidential Store Operations Manual. This manual contains a wealth of information about how to operate and grow your Figaro's Pizza franchise. Further, we will provide you with marketing aids, sample advertising, promotional recommendations, purchasing guidelines, and other tools you need to start and manage your business.

A simple example of how valuable this is can be seen in our Marketing materials. In nearly 40 years, we and franchisees have tried literally thousands of promotions. But the only ones you will find in our materials are those which have been successful repeatedly. As a result, you avoid reinventing the wheel and the wasted costs of running promotions which didn't perform.

You will be able to access all of this, and more, on-line via our own private intranet site.
